

Accessing Shared Imaging

The Valley Hospital has partnered with IntelShare to provide an easy-to-use, Image Sharing Portal. To access the imaging shared with you, IntelShare by following this link: vhs.ambrahealth.com

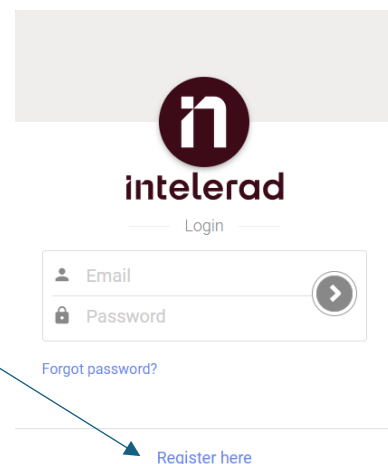

If you do not have an existing account, register for one here

Once logged in, all studies shared with your email address will be listed in order of upload date:

Studies

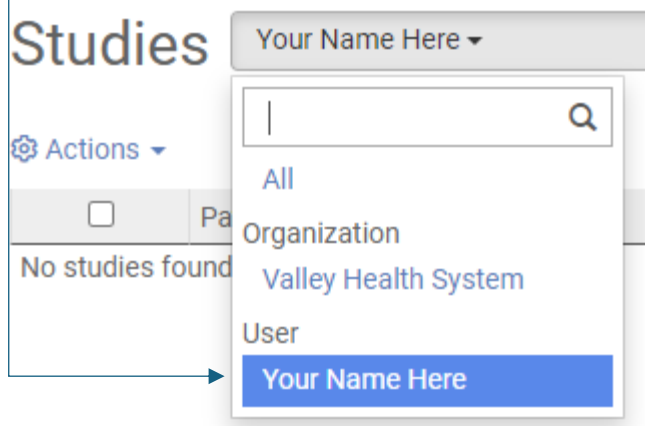

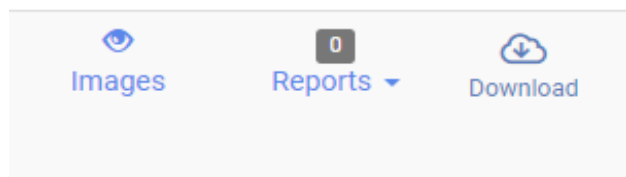

[+ Add a Study](#)

TEST PATIENT (M) DOB 03-15-1985 MRN 2000061508	TEST CR 1 images Acc#: RPhys:	01-02-2020 12:16 PM
--	-------------------------------------	------------------------

If you have an account which has access to an existing organization within IntelShare, you will need to select the *User Worklist* from the dropdown list next to **Studies**:

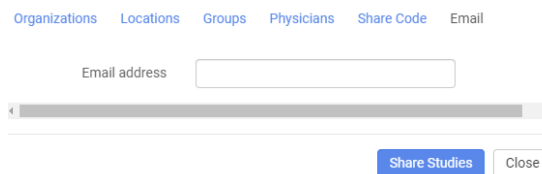

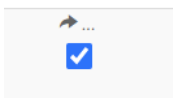

The imaging shared with you can be downloaded or shared to additional users via email. Images can be viewed from the Image Sharing Portal, as well. To access these tools, use the icons to the right of the study entry.

Studies selected for download will import via your browser and will include a local copy of the IntelShare ProViewer. To Share a study by email, select one or more studies using the checkboxes on the right of the screen. Once selected, click the Share button.
